## LESSON PLAN

A.

### Quantitative Aptitude

Unit	Duration (hr)	Phase	Objective
Number Properties - I	2	I	At the end of the lesson, the learners will be able to apply formulae and approaches to solving problems from the given topics.
Number Properties - II	2	I	
Linear Equations	2	I	
Ratio, Proportion and Variation	2	I	
Averages	2	I	
Percentages	2	I	
Simple Interest and Compound Interest	2	I	
Areas and Volumes - Basic	2	I	
Quadratic Equations	2	II	
Profit and Loss	2	II	
Mixtures and Alligations	2	II	
Time, Speed, and Distance - Basic	2	II	
Time and Work	2	II	
Time, Speed, and Distance - Intermediate and Advanced	2	II	
Permutation and Combination - Basic	2	III	
Permutation and Combination - Intermediate and Advanced	2	III	
Probability	2	III	
Areas and Volumes - Intermediate and Advanced	2	III	
Trigonometry	2	III	
Logarithms and Functions	2	III	

### Reasoning Aptitude

Unit	Duration (hr)	Phase	Objective
Letter Series, Number Series, Coding and Decoding	2	I	At the end of the lesson, the learners will be able to apply problem-solving approaches to solving questions from the given topics.
Syllogisms	2	I	
Blood Relations and Direction Sense	2	I	
Non-Verbal Reasoning - I	2	I	
Non-Verbal Reasoning - II	2	II	
Analytical Reasoning - I	2	II	
Analytical Reasoning - II	2	II	
Binary Logic	2	III	
Sequential Output Tracing	2	III	
Selection Decision Table	2	III

## Verbal Aptitude

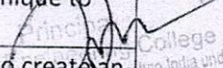

Unit	Duration (hr)	Phase	Objective
Error Spotting - Basic	2	I	At the end of the lesson, the learners will be able to apply grammar rules and problemsolving approaches to solving questions from the given topics.
Sentence Correction - Basic	2	I	
Synonyms and Antonyms	2	I	
Para-Jumble	2	I	
Error Spotting - Intermediate and Advanced	2	II	
Analogies	2	II	
Reading Comprehension	2	II	
Sentence Correction - Intermediate and Advanced	2	III	
Sentence Completion	2	III	
Critical Reasoning	2	III	

## Career Skills

Unit	Duration (hr)	Phase	Objective
Resume Skills - Common Errors	1	I	At the end of the lesson, the learners will be able to circle errors in a standardized sample resume.
Interview Skills - Common Errors	1	I	At the end of the lesson, the learners will be able to select the correct response to a situation-based Likert Scale questionnaire
Group Discussion - Common Errors	3	I	At the end of the lesson, the learners will be able to select the correct response to a situation-based Likert Scale questionnaire
Resume Skills - Preparation and Presentation	1	II	At the end of the lesson, the learners will be able to present a prepare a resume
Interview Skills - Preparation and Presentation	1	II	At the end of the lesson, the learners will be able to script responses to typical interview questions
Interview Skills - Simulation	5	III	At the end of the lesson, the learners will be able to critique the performance of a few simulated interviews
Group Discussion Skills - Simulation	3	III	At the end of the lesson, the learners will be able to critique the performance of a few simulated group discussion

## B. Managerial Skills

Unit	Duration (hr)	Phase	Objective
Time Management	1	I	At the end of the lesson, the learners will be able to apply the Eisenhower Matrix and to use the Pomodoro Technique to manage time
Planning	1	I	At the end of the lesson, the learners will be able to create an action plan and use the SCHEME technique to validate the plan
Problem Solving	1	I	At the end of the lesson, the learners will be able to use the 7-Step Problem Solving process to find the ideal solution to the problem posed in the roleplay

## Work Plan For Performing The Assignment

The motive or final output of this Work Plan is to achieve the desired and mentioned objectives (both of the client and Universal Education) of the assignment.

As the ultimate aim of this assignment is to

- enhance student's approach to learning and understanding
- meeting the corporate requirements
- creating a broad spectrum of students employable as per the current corporate standards
- increasing the placement conversion ratio in the catered institutions

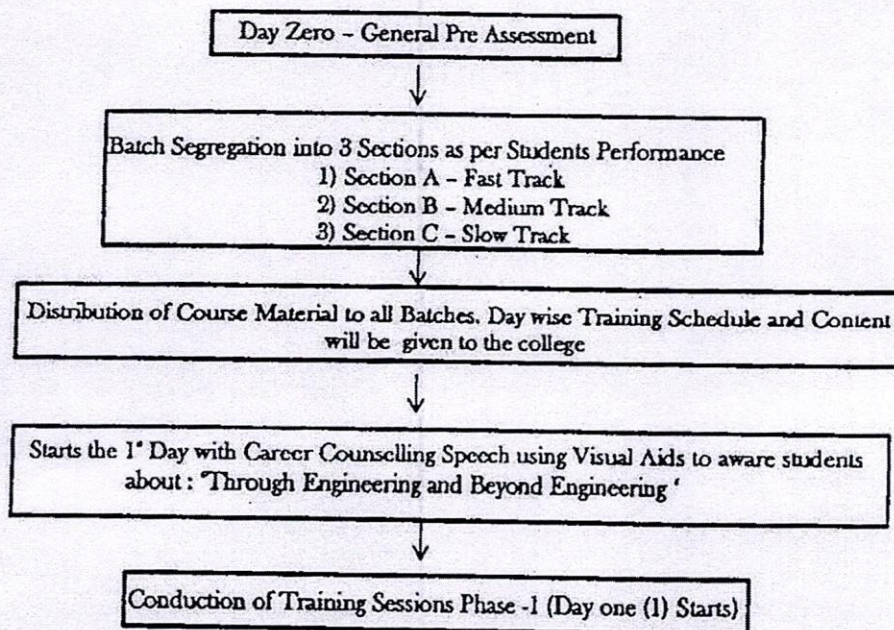

### Work Plan

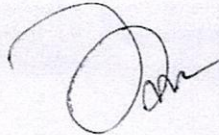

The proposed work plan is a very well compatible to the approach and methodology adopted in performing the given assignment :

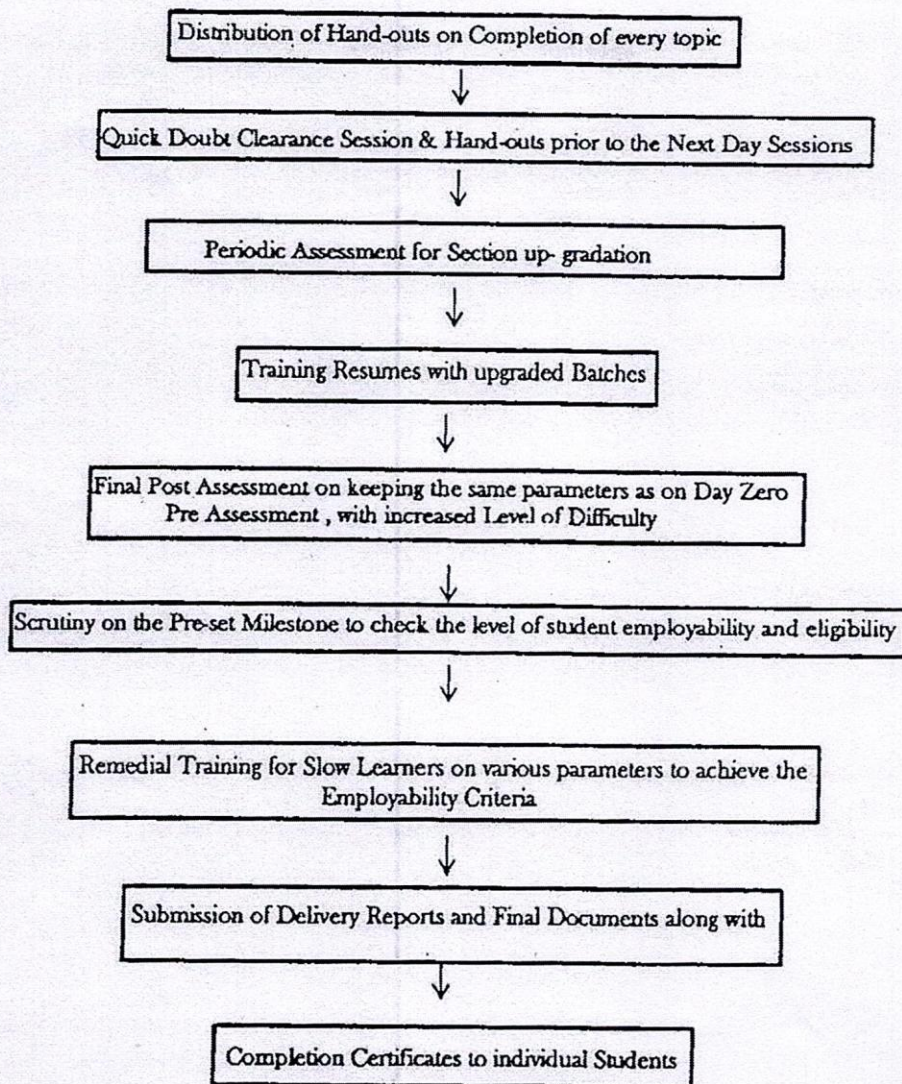

The main activities under the assignment will be as follows:

Please find below a flow chart mentioning the highlights of the activities of this assignment, which is prepared for easy and quick understanding.

The details of each activity will be elaborated under the flow chart for better understanding.

initial level of students. Hence, the college can compare the performance of their students in the Pre-assessment (before the training) from the various intermediate assessments (during the training) and the Final assessment (on completion of the training). Hence, the college can realize the visible change in their student's performance from our Training program.

- Based on the performance of students in the Pre-assessment, they are categorized and segregated into three sections-

Fast Track - for quick learners

Medium Track- for average pace learners

Slow Track - for below average learners

Each section will have multiple batches depending on the available number of students for training. Hence, all students will be segregated into batches depending on their performance in the Pre-Assessment

- Once the batches are segregated, training course material in the form of books and CD will be distributed. Hence, the students will have an idea to what the training course is all about and will come prepared for each session.

At the same time, Training content and day wise schedule will be given to the college, which the college can display to the students. This will help college to monitor the progress of the training and students can come with some readiness and preparedness for the sessions.

- Prior to the Day 1 Training Session commencement, we conduct a Career Guidance and Counselling session for the target Students and their Parents as an Awareness Program. We remind them the pathway they covered to reach the Engineering Institutes.

We ask them to keep practising the basic calculation and Grammar basics, which they are learnt in their High Schools as these are the fundamentals to entry level examinations to their career options.

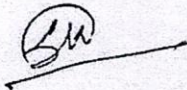

We guide them on the basic requirements every Engineering student- be it from any branch- Mechanical, Civil, Computer Science, Electronics etc should one must follow and practise in common during their four years of Engineering. These basic requirements will help them grow professionalism, become genuine engineers and become employable.

We also guide them on the career scopes beyond Engineering, discussing on Job options for an Engineering, Various Higher Studies options available for an Engineer, Entrepreneurship, Civil Service Examinations etc.

- Then on 'Day 1', the training sessions commences. The training sessions will cover various modules like Aptitude Skill, Verbal Ability, Reasoning Ability, Puzzles Skills, Communication Skills, Team work and team building, Group Discussion, Resume Preparation, Interview Techniques and Personality Development sessions etc. Detailed Syllabus of the training and duration for each module is discussed separately.

After every topic or sessions of Aptitude, Hand-outs will be distributed to individual student. So that end of the day, they can use the Hand-out for revising the topic and practising it.

The next day training session will start with a Quick Doubt Clearance Session on the hand-outs distributed to students the previous day. Thereafter the new session starts with different set of topics. Again Hand-outs will be distributed for these set of topics to students at the end of the day. Hence, every day session will begin with doubt clearance session on the hand-outs distributed the previous day.

To: <info.decjh@gmail.com>

Dear Prof. Ranadeep Dey,

Congratulations!

You have successfully registered 910 students in total from your college on Internshala. Now every one of them has their own Internshala account through which they can apply to internships.

Next step - We have sent a verification email to all the students, please ask them to open the email and click on the verification link to start using their accounts. Only after verifying, the students will be able to apply to the internships of their choice and receive weekly internship updates.

**View the overall reports on hired or registered students from your college by logging in to your student activity dashboard** here. Please let me know if you have any questions.

Look forward to a long-lasting association.

Many thanks,

## Certification of Start-Up and innovation

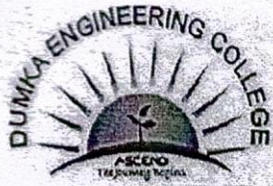

This is to certify that the Start-Up innovation cell has been formed under sponsorship of TEQIP III in Dumka Engineering College, (ESTD. By Govt. of Jharkhand & Run by Techno India under PPP), Jharkhand, in 2017, and the activities (Start-up Ecosystem, Drive for promoting creativity, Hackathon participation etc.) are considered and shared with students. "Tech Club" has been formed by the students for the promotion of Start-up activity.

### Activities under Start-Up:

1. Six months Progress report along with action plan has been submitted.
2. Students "Tech Club" has been formed.
3. GET Test has been organized for all Dept Students and Faculty.
4. Start-up and Innovation projects are adopted by the students.

ANYONE CAN PARTICIPATE

TECHNO INDIA GROUP PRESENTS

# The Future-Proof Hackathon

India's first-of-its-kind virtual Hackathon for innovative tech ideas that will thrive in the post COVID-19 world.

TECHNO INDIA GROUP

# IDEA ELIGIBILITY

TEAMS WILL BE WELCOMED TO PARTICIPATE ONLY IF:

- The team follows team eligibility guidelines (see previous slide)
- Their idea can be categorised into one of the 10 verticals
- Their solution does not exist yet as such, i.e. does not breach any IP or plagiarism rules
- Their idea is tech-enabled

**Note 1:** Teams who do not respect the above eligibility criteria when registering will be dismissed before the event starts and will not get to participate

**Note 2:** We welcome both new ideas freshly developed on the occasion of the Hackathon, and unfinished ideas whose initial concept might have been developed prior which see significant development (e.g. new features) during the hackathon

# SELECTION CRITERIA

HACKATHON WINNERS WILL BE SELECTED UPON THEIR IDEAS:

- Innovativeness
- Business & Technology Viability
- Scalability
- Positive impact
- Team's intention, effort, strengths
- Perceived overall potential

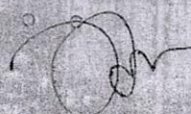

**Note 1:** The aforementioned criteria will be given priority over the quality of the video itself, but a clear, well-made and well-structured video may definitely play in the favour of the concerned team

**Note 2:** Vertical Leads and Mentors will support the final decision by providing a shortlist of the best MVPs under their vertical. The Grand Jury will include Hackathon Organising Team Members, Hackathon Chief Curators and Techno India Management

# TEAM ELIGIBILITY

## TEAM PARTICIPATION WILL BE CONFIRMED ONLY UNDER THE FOLLOWING CONDITIONS:

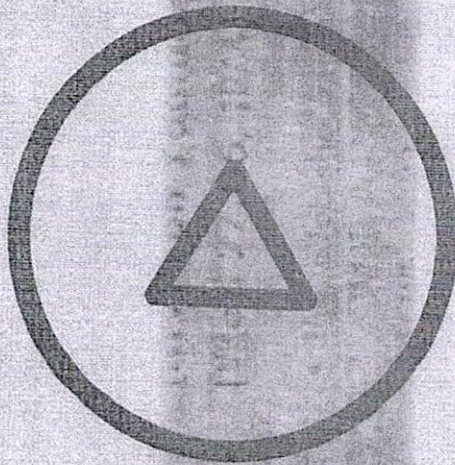

- The team should include at least 2 team members and at most 10 team members
- All participants should be 18 or above. There is no upper age limit
- All participating teams have to appoint one Team Lead who will be communicating with Mentors
- For student teams: team members can belong to different branches and streams
- Will be treated as non-institutional teams:
  - Student teams which include students from different institutes
  - Teams which include student and non-student members
  - Teams including no students

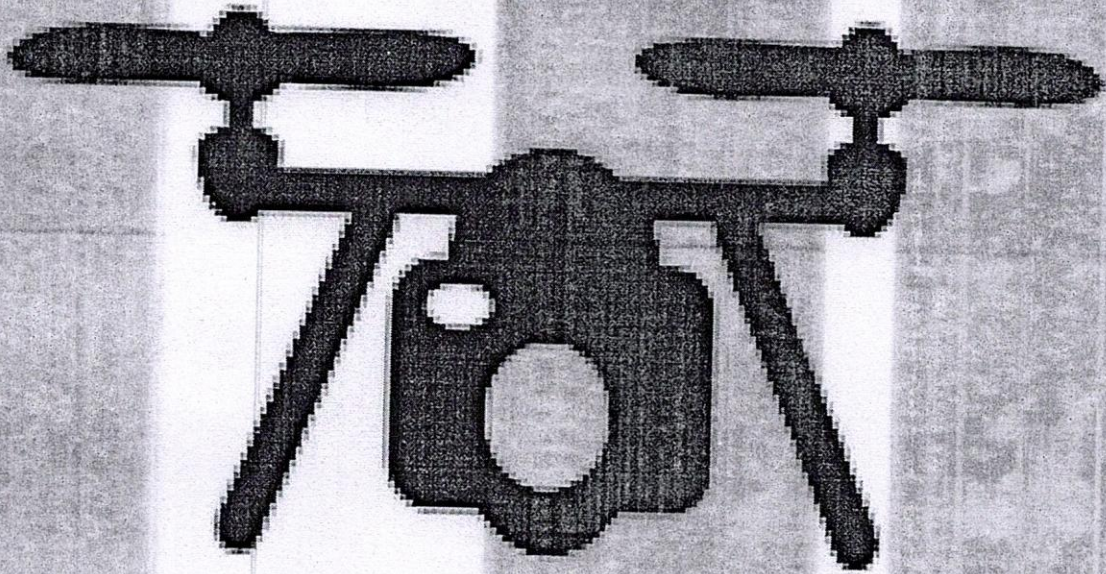

# EXPECTED DELIVERABLE

Each participating team should upload an explanatory video of their *Minimum Viable Prototype (MVP)* on Youtube and share the link by the deadline (Wed 27.05, 1PM)

- The video should cover the following aspects:
  - What the idea is
  - Why and how it is valuable and useful
  - Showcase of the MVP
  - How to implement and scale it next
- Teams who provide their video after the deadline will be disqualified
- Teams who provide a video longer than 2 minutes exactly will be disqualified

Subject: Permission for one day visit at Massanjore Hydroelectric Power Station, WBSEDCL

Dear Sir,

It is to inform you that we are going to organize a five Days Short Term Course on "Power Electronics and its application in Machine Drives" from 16<sup>th</sup> February to 20<sup>th</sup> February 2019 at Dumka Engineering College.

For this purpose we are planning to organize a one day visit at Massanjore Hydroelectric Power Station, WBSEDCL on 17<sup>th</sup> February 2019.

I, hereby, request you for the permission of one day visit at Massanjore Hydroelectric Power Station, WBSEDCL on the above mentioned date for sixty students.

I will be highly obliged if you kindly grant the permission.

Thanking you.
