Academic Programs

The Institution offers 5 Under Graduate Programs viz. B.Tech. in Civil, Computer Science, Electronics & Communication, Electrical and Mechanical Engineering.

Processes followed to improve quality of Teaching &Learning

- Institute calendar of events is prepared well in advance before the commencement of the semester based on college calendar of events. It consists of the activities planned for the semester which includes internal test dates, display of internal marks ,conduction of events like organizing guest lectures, conferences etc.
- Subject allotment is done well in advance for the staff to prepare lesson plans, course plan, soft and hard copies of the lecture notes.
- ➤ As per the university guidelines 6-8 experiments are to be conducted. One or two experiments are conducted beyond the specified list for relevant courses. Laboratory manual explaining the details of the experiment, designing issues are available with the course teacher and are given to students at the commencement of the semester.

The faculty of department adopts various innovative Teaching & Learning methodologies to create the best learning environment for students.

- These methodologies include traditional black board teaching, presentations, video lecturing, collaborative learning methods are used where every concept is explained with real world illustrations, design and problematic aspects are conveyed by a short cut method.
- > The faculty are now oriented towards Outcome based Education (OBE) and are actively utilizing the OBE to cater the learning needs of students by innovative way.
- > Lecture Session duration 50 minutes. Laboratory duration is 3 hrs.
- > Assignments are given to students for their better performance.
- > Invited talks and seminars on the current trends are done regularly from the industry persons.
- > Tutorial/Remedial classes are conducted for the slow learners based on their performance in external exams and after the first internals.
- > Motivating and guiding students for higher studies and university ranks.
- > Technical quiz is conducted for the students.
- > All the faculties are requested to maintain Attendance registers, course files, Work dairies.
- Industrial visits are conducted at least once a year to reduce the gap between industry and institute.
- > Workshops are organized to help the students to understand concepts beyond curriculum.

One-one discussion, interaction between Professors and students has increased confidence levels of the students.

Edry to Control to Visit of the Control of the Cont

➤ Identification of bright and weak students. Motivate the weak students to attend tutorials and help them solve more problems. Encourage the bright students to attend more workshops and technical talks.

Quality of internal semester Question papers, Assignments and Evaluation

- Initiatives and Implementation details for improving the quality of Internal
 Semester Question papers (Internal Assessment Test)
 - > The department conducts two internal assessment tests according to the academic calender.
 - > Each test covers one half of the syllabus.
 - > The tests are conducted for a maximum of 30 marks. (No minimum marks criteria from the university).
 - > The duration of the test is one hour and question paper are set to make the student to learn timemanagement.

Question Papers:

- > For each subjects, question bank is prepared.
- > While setting the question paper all previous university exam papers are taken into consideration.
- According to level of toughness the questions are prepared (viz., analyzing the problems, implementation of modern tools, formulating the problems etc), which is termed as Bloom's Taxonomy.

The questions will be of three categories:

- One third of the questions is straight and can be answered by all students.
- One third of the questions need analysis and use of content covered as per syllabus.
- Remaining one third of the questions is not straight. Certain amount of thinking, analysisand mathematical knowledge are required to resolve.

Assignments:

- Assignment issue and submission dates are announced by the respective faculty members.
- > Assignment questions are prepared using Bloom's Taxonomy process.
- Surprise tests, quizzes, video links are provided.
- > In order to bridge the gap in curriculum, bright students are given some assignment beyond syllabus.

Evaluation:

> The faculties after every internal assessment test they explain the solution

Physician College

Physic

- of the questions in the class which will enable them to perform well in the final examination.
- > For any genuine reasons, if a student was unable to perform well in the given two internalassessment tests, improvement test is given to him/her.
- > The average of the marks obtained from any best two test is chosen for the award of internal assessment marks.
- > If a candidate remains absent for all the tests conducted, the Internal assessment marks are markedas "Absent" in the result.
- ➤ Assignments are used as a tool for practice and evaluation is based purely on Internal AssessmentTest.

Impact analysis

- Very good results in Internal and External examination.
- Improvement in overall performance of students thus improves the placement and higherstudies.
- The stimulating environment made students to plan their study plan for better performance

Quality of internal semester Question papers, Assignments and Evaluation

Initiatives and Implementation details for Improving the quality of Internal Semester Question papers (Internal Assessment Test)

- > The department conducts two internal assessment tests according to the academic calendar.
- > Each test covers one half of the syllabus.
- > The tests are conducted for a maximum of 30 marks. (No minimum marks criteria from the university).
- > The duration of the test is one hour and question paper are set to make the student to learn time management.

I. Question Papers:

- > For each subjects, question bank is prepared.
- > While setting the question paper all previous university exam papers are taken into consideration.
- According to level of toughness the questions are prepared (viz., analyzing the problems, implementation of modern tools, formulating the problems etc), which is termed as Bloom's Taxonomy.

The questions will be of three categories:

- o One third of the questions is straight and can be answered by all students.
- o One third of the questions need analysis and use of content covered as per syllabus.
- o Remaining one third of the questions is not straight. Certain amount of thinking, analysis and mathematical knowledge are required to resolve.

II. Assignments:

- > Assignment issue and submission dates are announced by the respective faculty members.
- > Assignment questions are prepared using Bloom's Taxonomy process.
- > Surprise tests, quizzes, video links are provided.
- > In order to bridge the gap in curriculum, bright students are given some assignment beyond syllabus.

* Evaluation:

- > The faculties after every internal assessment test they explain the solution of the questions in the class which will enable them to perform well in the final examination.
- For any genuine reasons, if a student was unable to perform well in the given two internal assessment tests, improvement test is given to him/her.
- > The average of the marks obtained from any best two test is chosen for the award of internal assessment marks.
- > If a candidate remains absent for all the tests conducted, the Internal assessment marks are marked as "Absent" in the result.
- Assignments are used as a tool for practice and evaluation is based purely on Internal Assessment

 Test.

Impact analysis

- Very good results in Internal and External examination.
- Improvement in overall performance of students thus improves the placement and higher studies.
- The stimulating environment made students to plan their study plan for better performance

Initiatives and implementation details of improving Quality of Laboratory Experiments (Assignments)

- > The college organize/encourages inter collegiate contests to encourage students to demonstrate their programming skills, circuit debugging skills.
- > The Laboratories are conducted in session of 3 hours, in each session thefaculty explains the circuit experimented.

External Examination Process

| Type of Assessment | Total marks | Time duration |
|----------------------|-------------|---------------|
| External examination | 70 | 3 hours |

Grievances about internal examination:

In case if any students have any grievances about any of their internal examinations then the following measures (any one) are conducted:

- 1. Write application to the HOD of the concerned department mentioning proper reason with valid documents.
- 2. Write application to the exam controller mentioning proper reason with valid documents.

Action on Grievances:

HOD conveys the application to the exam controller or exam controller directly takes action regarding the submitted applications. If the application will be approved then the student can give the missed internal examination through department with different question paper and same method of examination.
